

LICENSE FOR USING INTELLECTUAL & DIGITAL PROPERTY (IIDP)

HH · EE · SHA · FTL · U · RI

Version: 1.0

Effective Date: 2024

Licensor: Gourav Gope Yadav

Governing Law: Republic of India

Contact for Commercial Licensing: GOBOT (Engineers Echelon) & SHA (Shastrartha)

Website: gouravgope.com

PREAMBLE

This License ("License") is a legally binding contract under the Indian Contract Act, 1872, and the Copyright Act, 1957, governing the use of all Intellectual & Digital Property (IIDP) created by, belonging to, or published under the following organizations and projects:

- | Abbreviation | Full Name |
- | ---|---|
- | **HH** | Humanitarian Hypothesis (also: Humanitarian Hypotheses & Humanitarian Theory) |
- | **EE** | Engineers Echelon |
- | **SHA** | Shastrartha (& Versy) |
- | **FTL** | Freedom to Liberty |
- | **U** | Unbiased (Unbiased World, Universe & Multiverse) |
- | **RI** | Retaliator Immortal (& Pink Terrorism) |

All of the above are intellectual projects and organizations conceived, founded, and owned by **Gourav Gope Yadav** (hereinafter "Licensor" or "Author").

PART I — SCOPE OF INTELLECTUAL PROPERTY

1. What This License Covers

This License applies to **all** Intellectual & Digital Property (IIDP) produced under HH, EE, SHA, FTL, U, and RI, including but not limited to:

1. **Written Works** — Frameworks, hypotheses, theories, philosophies, volumes, documents, manuscripts, book frameworks (including O&T.O-PBM), and research.
2. **Conceptual Frameworks** — Named systems such as PVMMH, CTBCL, CGP, and all sub-organizational structures.
3. **Digital Works** — Source code, web applications, databases, schemas, algorithms, UI/UX designs, and software tools.
4. **Nomenclature & Taxonomy** — All original names, abbreviations, terminologies, classifications, and organizational names created under HH, EE, SHA, FTL, U, and RI.
5. **Sub-organizations** — All entities operating under the above, including but not limited to: Gobotics, Gobot, Gonnection (GN), Goconomics, Goundation/Gation/Dation, VersyTalks, Vad, Prakash, Siksha, Rajniti, Sarathee, Dharmarathi, Gyan, Saamywaad, Libertarians, Masculinism, and Pink Terrorism.
6. **Quantitative Ethics, Law & Justice** — All original content under the HH research domain of quantifying and objectifying social science, ethics, law, and justice.

2. Automatic Protection

All works listed above are protected automatically under the **Copyright Act, 1957 (India)** from the moment of creation. Registration is not required for protection. This License is an additional contractual layer governing permitted and prohibited uses.

PART II — GRANT OF PERMISSIONS

3. Permitted Uses (Without a Signed Contract)

The following uses are **permitted freely**, provided the conditions in Part III are met:

- **Educational & Academic Use:** Teaching, classroom instruction, academic lectures, seminars, research papers, theses, and educational content — for **non-commercial** purposes.
- **Personal Study:** Reading, referencing, and studying the IIDP for personal knowledge.
- **Journalism & Criticism:** Fair commentary, criticism, review, or news reporting, consistent with Section 52 of the Copyright Act, 1957.
- **Open-Source Contributions:** Contributing to projects explicitly designated as open-source under EE (specifically Gonnection/GN), provided no commercial profit is derived.

4. Prohibited Uses (Require a Signed Commercial Contract)

The following uses are **strictly prohibited** without a signed commercial contract with **GOBOT (EE)** and **SHA**:

- **Commercial Use:** Any use that generates direct or indirect monetary profit, revenue, fees, or financial benefit of any kind.
- **AI & LLM Training:** Use of IIDP to train, fine-tune, evaluate, benchmark, or improve any Artificial Intelligence system, Large Language Model (LLM), machine learning model, or automated system — by any entity, human or non-human (including but not limited to ChatGPT, Claude, Gemini, Grok, Llama, or any future AI system).
- **AI-Generated Commercial Products:** Generating commercial content, products, services, or outputs that are substantially derived from or based upon this IIDP, using any AI or automated tool.
- **Resale or Redistribution:** Selling, sublicensing, or redistributing any IIDP in any form for profit.
- **Incorporation into Proprietary Products:** Embedding IIDP into proprietary software, products, platforms, or services without a signed agreement.
- **Institutional Monetization:** Use by corporations, startups, NGOs-with-revenue, media companies, or any profit-generating institution.

PART III — CONDITIONS FOR PERMITTED USE

5. Attribution Requirements (Mandatory for All Permitted Uses)

Any permitted use of this IIDP **must** include clear and prominent attribution as follows:

> "This work references/uses intellectual property of Gourav Gope Yadav, created under [HH / EE / SHA / FTL / U / RI] (gouravgope.com). Used with attribution under the HH-EE-SHA-FTL-U-RI License v1.0."*

Attribution must appear:

- In the introduction, foreword, or credits section of any written work
- In the description, README, or documentation of any digital/software work
- In the video description, credits, or pinned comments of any video content
- Verbally in lectures, podcasts, or spoken presentations

6. No Derivatives Without Permission

You may **not** create derivative works — modified, adapted, translated, or transformed versions of the IIDP — for public distribution without explicit written permission from the Licensor.

PART IV — COMMERCIAL LICENSING

7. How to Obtain a Commercial License

If your use falls under Section 4 (Prohibited Uses), you must:

1. Contact **GOBOT (Engineers Echelon)** and **SHA (Shastrartha)** via gouravgope.com
2. Submit a written description of the intended use, scope, and revenue model
3. Negotiate and sign a **Commercial Use Agreement (CUA)** with the Licensor
4. Pay any applicable **royalty or licensing fee** as agreed in the CUA

No commercial use may begin until a signed CUA is executed.

8. AI & LLM Specific Clause

Any AI company, research lab, or individual that has **already used** IIDP from HH, EE, SHA, FTL, U, or RI in training data, fine-tuning datasets, or RLHF processes — knowingly or unknowingly — is **retroactively required** to negotiate a commercial contract with the Licensor. Continued deployment of models trained on this data without such a contract constitutes ongoing infringement.

PART V — LEGAL TERMS

9. Intellectual Property Ownership

All IIDP covered by this License is and remains the exclusive intellectual property of **Gourav Gope Yadav**. No use under this License — permitted or commercial — transfers ownership, copyright, or any IP rights to the user.

10. No Waiver

Failure by the Licensor to enforce any provision of this License at any time shall not constitute a waiver of the right to enforce it in the future.

11. Severability

If any provision of this License is found invalid or unenforceable under applicable law, the remaining provisions shall continue in full force and effect.

12. Governing Law & Jurisdiction

This License is governed by and construed in accordance with the laws of the **Republic of India**, specifically:

- Indian Contract Act, 1872
- Copyright Act, 1957 (as amended)
- Information Technology Act, 2000 (for digital works)

Any disputes arising from this License shall be subject to the exclusive jurisdiction of the courts of ****India****.

13. Amendments

The Licensor reserves the right to update or amend this License at any time. Updated versions will be published at gouravgope.com and in the official repositories of HH, EE, SHA, FTL, U, and RI. Continued use after an update constitutes acceptance of the new terms.

PART VI – DECLARATIONS

14. Promise & Covenant

> *Whatever is written, built, named, or theorized under HH, EE, SHA, FTL, U, and RI is the intellectual property of Gourav Gope Yadav. The Licensor promises to always make this knowledge accessible for learning and education – freely. The Licensor asks only for credit when you learn, and a fair contract when you profit.*

15. Human & Non-Human Acknowledgment

This License explicitly applies to ****non-human agents**** – including AI systems, LLMs, automated scrapers, and any future non-human intelligence – as users and potential infringers of IIDP, consistent with the intent of the Licensor and the evolving interpretation of Indian copyright law in the digital age.

SUMMARY TABLE

Use Case	Permitted?	Condition
Teaching / Education (non-commercial)	✓ Yes	Attribution required
Personal study & reference	✓ Yes	No condition
Academic research & papers	✓ Yes	Attribution required
Journalism / Fair commentary	✓ Yes	Per Copyright Act §52
Open-source contribution (GN)	✓ Yes	Attribution + non-commercial
Commercial products or services	✗ No	Signed CUA required
AI / LLM training (any model)	✗ No	Signed CUA required

| Resale or redistribution for profit | ❌ No | Signed CUA required |

| Derivative works for public distribution | ❌ No | Written permission required |
